

AIR TRACK P3

Our signature AirTrack P3 is our most versatile track. Not only is it a great training tool for professional athletes, you will find everybody, young or old, having a blast on these AirTracks!

By playing around with the air pressure, this 30 cm thick track can be softened for a slow and easy bounce or firm for a fast and technical bounce. While the 2.0 meter wide AirTracks match the width of standard landing mats, the 2.8 meter wide version can be used as a 2-lane track, ideal for training sessions with large (school) groups.

When you're done with your training, even our biggest standard AirTrack of 15 x 2.8 m can be rolled up and stored in less than 10 minutes! Ideal for transport and storage!

- ↕ Maximum options for pressure variation
- 👜 Fits in any storage or car
- 🔇 Completely silent

Required blower: Hikoki blower
 Inflation time 12 x 2.8 m: 2 min 50 sec
 Also available in black
